NEW COMPUTER SKILLS GRADUATES

What a joy to see these bright young ones flourish because of new opportunities available to them through the NMF ICT centre! These young people are being exposed to a light in ICT that will shine brighter and brighter. They may go on to become the future leaders not only in their communities but in Uganda.

Thank you so much to everyone especially to the team on the ground for all their hard work and to our funders.

Spotlight is run entirely by volunteers, so over 95p of every £1 you donate goes directly to our projects in Uganda.

With Gift Aid, this increases to over £1.21!

If you're interested in getting involved with Spotlight on Africa, please email enquiries@hsoa.org.uk

HEALTH CLINIC NEWS

Spotlight is partnering with Outreach EMR to provide a digital upload of data to include immunisations to the Department of Health of Uganda. This process usually takes over two months for the data to be available for analysis.

Spotlight has updated the solar system to ensure a reliable electricity source and EMR have provided 5 new lap top computers to enable this two year project along with training to the clinic staff.

We are grateful for this partnership and delight in working together on this unique opportunity to modernise health care data systems.

A POSITIVE START TO A NEW ACADEMIC YEAR

Staff at the primary school enjoy engaging in motivational team building exercises in preparation for the forthcoming academic year.
